SUMMARY

Senior strategic partnerships, operations, and customer success leader with 10+ years of experience across enterprise SaaS, fintech, retail, and Web3. Brings Chief of Staff, ecosystem, and commercial leadership experience together with technical fluency across data, AI, and product.

Equally comfortable leading enterprise transformation programmes or building new capabilities from scratch in startup environments, with a history of success managing high-value client relationships, driving complex initiatives to completion, and working across distributed global teams spanning APAC, Europe, and North America.

CAREER HIGHLIGHTS

- Scaled strategic partnerships across 13 countries and 8 blockchain networks at SideShift.ai
- Chief of Staff on a multi-year FTSE 100 transformation programme, delivering over £10M in annual supply chain value and a 50% reduction in client time-to-value.
- Built and launched a retail innovation platform from MVP to global rollout across 12 international locations, driving a 34% increase in spend per visit and a 23% sales uplift from participants
- Company-wide NPS turnaround from -42 to +10 through improvements in service delivery and client engagement at Peerius

CORE CAPABILITIES

- Strategic Partnerships & Ecosystem Growth
- Customer Success & Client Retention
- AI Adoption & Workflow Automation
- Executive Operations & Chief of Staff
- Data Analytics & Executive Reporting
- Programme & Portfolio Leadership

PROFESSIONAL EXPERIENCE

Developer Relations | Ecosystem and Strategic Partnerships, SideShift.ai (04/25 to 05/26)

Non-custodial crypto exchange, direct to wallet trading, and payments infrastructure | Web3 | Startup (~18 employees)

Led strategic partnerships, and ecosystem growth at SideShift, owning the full partner lifecycle from research, and first introduction through to onboarding & integration, managing relationship health, customer success and long-term growth.

- Designed and delivered a global hackathon attracting 164 builders, generating 68 submissions and one live product launch.
- Implemented new CRM & generated 24 qualified ecosystem contacts at Solana Accelerate within two weeks of joining, including senior contacts from Phantom, MetaMask, and Solflare.
- Introduced AI agents to automate research, ecosystem intelligence, and operational workflows.

Military Service & Career Development Break, UK Forces / NATO (11/23 to 04/25)

Defence and multinational peacekeeping operations | Surveillance and Reconnaissance Patrols

Deployed on overseas peacekeeping operations as part of a multinational NATO taskforce. Studied & qualified in high performance sport coaching.

Lead Data Consultant (Chief of Staff to Programme Leadership), Accenture (formerly Redkite) (06/21 to 11/23)

Management consulting and professional services | Global enterprise (700,000+ employees); Redkite was a boutique data and analytics consultancy (~150 employees)

Promoted from Senior Business Analyst. Drove alignment between executive stakeholders and engineering delivery teams.

- Delivered over £10M annual supply chain efficiency savings through enterprise data and visibility platforms.
- Led and mentored team of eight business analysts and multiple engineers. Built data infrastructure that supported FTSE 100 retailer AI recommendation engine, now responsible for over 10% of total e-commerce sales, leading to contract renewal.
- Achieved a 50% reduction in client time-to-value through improved delivery governance and operating models.

Solution Team Leader | Product Owner & Scrum Master, NTT Data (formerly everis UK) (06/18 to 06/21)
IT services and digital transformation consulting | Global enterprise (~190,000 employees)

Led delivery teams across digital transformation programmes spanning luxury retail and fintech. Accountable for client outcomes, stakeholder engagement, delivery governance, and programme success across seven initiatives.

Howdens Joinery: DesignView Cloud Platform

- Kept the business fully operational through COVID when it would otherwise have been unable to run.
- Generated a 10 to 20% sales uplift and a 16-day reduction in customer lead time, with the platform subsequently expanded into Ireland, France, and Belgium.
- Delivered a new contracts feature, unlocking whole-building commercial bids as an additional revenue stream, unlocking further account growth.

Value Retail (Bicester Village): Hands Free Shopping Platform

- Defined the proposition, built the MVP, ran an 8-week in-village pilot, and rolled out across 12 villages globally. The platform remains live today.
- Guest spend increased 34% more per visit, with 40% registration growth driving a 23% sales uplift from participants.

Project Manager, Olapic (08/16 to 06/18)

UGC marketing and content platform | Early growth stage (~80 employees)

Managed client success and project delivery for a leading UGC and earned content marketing platform.

- Delivered 85+ client projects within budget and to target go-live, maintaining a 97% service rating.

Project Manager, Peerius (01/15 to 08/16)

Omnichannel personalisation SaaS | Early growth stage (~40 employees)

Joined as Support Analyst and progressed to Project Manager within 9 months, taking on full client delivery ownership.
